

Vacancy: Intern Environmental Technology or Chemical Technology

Dewatering sludge

Do you want to mean something to the world and work on real-life assignments in an international environment? Then why not choose an internship or graduation position at the Centre of Expertise Water Technology (CEW), at WaterCampus Leeuwarden?

CEW devises, researches and tests innovative solutions for the increasing global problems related to climate, environment, water and food, commissioned by companies and governments. CEW does this together with students, teachers and researchers from universities of applied sciences.

CEW is looking for:

An independent, good English-speaking student of Environmental Technology or Chemical Technology, who in addition to lab and computer work also likes to be practically engaged in the field.

What you are going to do:

A client of the CEW, based in the United Kingdom, has developed a technology with which sludge can already be drained on the Wastewater Treatment Plant (WWTP). As a result, fewer trucks with sludge have to go to the central sludge dewatering of the water board. You are going to help the company to put this new installation into operation and to monitor the operation and make adjustments where necessary to obtain the desired dewatering.

Your working environment:

Our office is located at WaterCampus, Oostergoweg 9 in Leeuwarden, The Netherlands. Here you will do an internship in a team of permanent employees and a group of students (10 to 20). In addition, you can regularly be found in the Water Application Centre (WAC), where we do a lot of our research and at the demo site on the Leeuwarden WWTP.

Your profile:

You have a sense of technology, work accurately and are not afraid of getting dirty hands. You can listen well and are able to translate problems into solutions. Both your oral and written command of the English language are good. You can handle a lot of freedom and you sound the alarm bell yourself if necessary.

What we offer you:

- * a socially relevant internship;
- * personal and expert guidance;
- * support with communication skills;
- * an international team with an informal atmosphere;
- * regular social activities;
- * a competitive internship allowance.

Your response:

Has what you've read here made you enthusiastic? Then please send an email describing your motivation and background to studenten@cew.nl, subject: "Vacancy: 2020299". For more information you can contact Maarten Trilsbeek, tel. 058 210 09 19 or visit www.cew.nl.
